022 16:40:35 Test 022 16:42:06 Setup 022 16:42:09 Note	start app, navigate menu of the app					
022 16:42:09 Note 022 16:48:06 Test	entered menu for student and list all students; then enter menu for assignments and list all assignments try adding new grade for existing student and assignment					
022 16:51:31 Bug	Cannot invoke "java.lang.Double.doubleValue()" because the return value of "service.Service.addNota(domain.Nota, String)" is null					
022 16:54:49 Note	value returned from Service.addNota was Double, while UI was expecting double, changed UI, made it expect Double this solved the crash, but now we don't know the grade the student can get: "Nota maxima pe care o poate primi					
022 16:57:23 Note 022 17:04:48 Test	studentul este: null", service returns null when grade was added successfully search for a way to display the grade					
022 17:11:25 Note 022 17:13:07 Note	remove some of the grades added until now in service, modified addNota such as it throws an error if the grade already exists, otherwise returns the final grade					
22 17:14:03 Test 22 17:14:27 Note	add a grade that already exists for a student and an assignment the result is the expected one: "Nota exista deja!"					
22 17:14:27 Note 22 17:17:00 Note	try adding new grade with invalid data for student=null => expected result = actual result = "Studentul nu exista!"					
22 17:18:11 Note 22 17:20:04 Note	for tema==null => expected result = actual result = "Globerton to existal" for nota > 10 = 12 => expected result = actual result = "Tema nu existal" for nota > 10 = 12 => expected result = actual result = "Valoarea note in u este corectal"					
22 17:21:31 Note	for nota < 0 = -5 => expected result = actual result = "Valoarea notei nu este corecta!"					
12 17:22:19 Test 12 17:24:16 Note	try adding new grade for inexistent student and assignment for inexistent student (id==55) => expected result = actual result = "Studentul nu existat"					
22 17:25:37 Note 22 17:27:07 Test	for inexistent assignment (id==8) => expected result = actual result = "Tema nu existat" try adding grade for extreme grades					
22 17:27:25 Note 22 17:28:46 Note	grade = 10 => grade added grade = 11 => "Valoarea notei nu este corecta!"					
2 17:30:09 Note 2 17:30:24 Note	grade = 9 => grade added grade = 0 => grade added					
2 17:30:44 Note	grade = 1 => "Valoarea notei nu este corecta!" grade = 1 => grade added					
12 17:30:57 Note 12 17:31:32 Test 12 17:32:11 Note	grade = 1 => grade slowed try penalty functionality of addGrade (that means we have to input a turn-in date one week later than the deadline) grade = 9, deadline = week 2, turn-in date = 2021-10-18 => final grade = 5.5 (penalty 2.5)					
2.17:32:11 Note 2.17:34:16 Test	try "can't turn in" functionality of addGrade (that means we have to input a turn-in date more than one week later than the					
2 17:35:08 Note	deadline) grade = 9, deadline = week 2, turn-in date = 2021-11-05 => final grade = 1.0 tu people, functionality of odd code (that means use hours to insure to the means used					
2 17:37:07 Test 2 17:37:26 Note	try penalty functionality of addGrade (that means we have to input a turn-in date one week later than the deadline) grade = 9, deadline = week 2, turn-in date = 2021-10-25 => final grade = 4.0 (penalty 5)					
2 17:37:49 Test 2 17:37:59 Note	try turn-in date < primire grade = 9, deadline = week 2, turn-in date = 2021-10-01 => "Studentul nu poate preda inca aceasta tema!"
